## 1. INTRODUCTION

### 1.1 Purpose of this Document

This document contains a testing specification for this project. The software engineering team will use this document to ensure the working system is functionally correct, robust and matches the client's specification. Tests ensure designs are adhered to and implemented correctly and can identify more bugs within software earlier in development.

## 1.2 Scope

This document covers the testing specification used during development. The intended readers are the Quality Assurance Manager, Project Manager Leader and all software engineers. The testing plan and procedures are specified in SE.QA.06 [1]

#### 1.3 Objectives

By the end of this document the reader should be informed of the nature of the tests and the methodology of testing. They should also be able to clearly identify the functional requirement [2] being tested, the purpose of that test and the expected outcome.

# 2. TASKERSRV / TASKERMAN TESTING

| Test<br>Ref | Req<br>being<br>tested | Test content            | Input  | Output   | Pass<br>criteria                |
|-------------|------------------------|-------------------------|--|--|---------------------------------|
| Please r    |                        | all TaskerMAN tests a   | are to be carried out in both Fire   | fox and Chrom  | e browsers                      |
| TS1         | FR7                    | Logging into system     | Do not enter email address and click on login button   | User is told<br>to enter an<br>email<br>address            | User<br>access is<br>prohibited |
| TS2         | FR7                    | Logging into system     | Enter email address "antibones123" and click on login button   | User is told<br>to enter a<br>valid email<br>address       | User<br>access is<br>prohibited |
| TS3         | FR7                    | Logging into system     | Enter email address "abcde123@example.co.uk" and click on login button   | User is told that the email is not recognised              | User<br>access is<br>prohibited |
| TS4         | FR7                    | Logging into the system | Enter email address  "jec17@aber.ac.uk"  And click on the login button   | User is told<br>that the<br>login was<br>un-<br>successful | User<br>access is<br>prohibited |
| TS5         | FR7                    | Logging into system     | Enter email address "mac81@example.co.uk" And click on login button (Test data has already been input into the database and so valid emails already exist)               | User<br>directed to<br>main menu                           | User<br>access is<br>granted    |
| TS6         | FR7                    | Add new user            | On the main menu click on add button Do not enter an email, first name or last name Leave 'Is manager?' as default Click on submit button                                | User is told<br>to enter an<br>email                       | Email is<br>rejected            |
| TS7         | FR3                    | Add new user            | On the main menu click on add button Enter email "johnsmith@example.com" Do not enter a first name, last name, leave 'Is manager?' as default and click on Submit button | User is told<br>to enter a<br>first name                   | First name<br>is rejected       |
| TS8         | FR3                    | Add new user            | Enter Email  "johnsmith@example.com"  First name "John Smith"  Do not enter a last name, leave 'Is manager?' as default and click on Submit button                       | User is told<br>to enter a<br>last name                    | Last name<br>is rejected        |

| Test Ref | Req<br>being<br>tested | Test content                                 | Input  | Output  | Pass<br>criteria       |
|----------|------------------------|--|--|---|------------------------|
| TS9      | FR3                    | Add new user<br>(Relevant for<br>later test) | Enter first name "Maurice" Enter last name "Corriette" Enter email "abc123@example.co.uk" leave 'Is manager?' as default   | Input<br>accepted   | User is<br>added       |
| TS10     | FR3                    | Add new<br>user(Relevant<br>for later test)  | Enter first name "Qi" Enter last name "XI" Enter email Qi123@example.co.uk leave 'Is manager?' as default                  | Input<br>accepted   | User is added          |
| TS11     | FR3                    | Add new<br>user(Relevant<br>for later test)  | Enter first name "Josh" Enter last name "Doyle" Enter email "Doyle123@example.co.uk"                                       | Input<br>accepted   | User is added          |
| TS12     | FR3                    | Add new<br>user(Relevant<br>for later test   | Enter first name "Oliver" Enter last name "Earl" Enter email ole123@example.co.uk leave 'Is manager?' as default           | Input<br>accepted   | User is<br>added       |
| TS13     | FR3                    | Add new<br>user                              | Enter first name "M" Enter last name "Tom" Enter email "abc123@example.ac.uk" leave 'Is manager?' as default               | User is told<br>that First<br>name is too<br>small              | First name is rejected |
| TS14     | FR3                    | Add new user                                 | Enter name "Ma" Enter last name "T" Enter email "abc123@example.ac.uk" leave 'Is manager?' as default                      | User is told<br>that last<br>name is too<br>small               | Last name is rejected  |
| TS15     | FR3                    | Add new user                                 | Enter first name "Maurice\$£%^" Enter last name "Hardy" Enter email "Maurice@example.co.uk" leave 'Is manager?' as default | User is told<br>that first<br>name has<br>invalid<br>characters | First name is rejected |
| TS16     | FR3                    | Add new user                                 | Enter first name "Maurice" Enter last name "%\$^" Enter email "abc123@example.ac.uk" leave 'Is manager?' as default        | User is told<br>that last<br>name has<br>invalid<br>characters  | Last name is rejected  |
| TS17     | FR3                    | Add new user                                 | Enter first name "abc" Enter last name "cba" Enter email "abc123" leave 'Is manager?' as default                           | User is told<br>that email<br>is invalid                        | Email is<br>rejected   |

| Test Ref | Req being tested | Test<br>content     | Input  | Output  | Pass criteria        |
|----------|------------------|---------------------|--|---|----------------------|
| TS18     | FR3              | Add new user        | Enter first name "Josh" Enter Last name "Doyle" Enter email "Josh123@example.c o.uk" leave 'Is manager?' as default  | Input<br>accepted   | User is added        |
| TS19     | FR3              | Add new<br>user     | Enter first name "Mark" Enter last name "Doyle" Enter email "Doyle123@example. co.uk" leave 'Is manager?' as default | User is told<br>that a<br>member<br>with that<br>email<br>already<br>exists | Email is<br>rejected |
| TS20     | FR3              | Edit user           | Edit existing user "Maurice Corriette" Change first name to blank  | User is told<br>to enter a<br>First name                                    | Change is rejected   |
| TS21     | FR3              | Edit user           | Edit existing user "Maurice Corriette" Change last name to blank   | User is told<br>to enter a<br>Last name                                     | Change is rejected   |
| TS22     | FR3              | Edit team<br>member | Edit existing user  "Maurice Corriette"  Change first name to  "M"   | User is told that first name is too small                                   | Change is rejected   |
| TS23     | FR3              |                     | Edit existing user "Maurice Corriette" Change Last name to "C"   | User is told<br>that Last<br>name is too<br>small                           | Change is rejected   |
| TS24     | FR3              | Edit team<br>member | Edit existing user "Maurice Corriette" Change first name to "Maurice£\$%"  | User is told that first name has invalid characters                         | Change is rejected   |
| TS25     | FR3              |                     | Edit existing user "Maurice Corriette" Change last name to "Corriette£\$%"   | User is told<br>that Last<br>name has<br>invalid<br>characters              | Change is rejected   |
| TS26     | FR3              | Edit team<br>member | Edit Existing user  "Maurice Corriette"  Change last name to  "Jordan Corriette"                                     | Input<br>accepted   | Change is successful |
